

C Programming (W7)

Welcome!!

Please check attendance individually.
(Mobile App)

Things to do today

- 01** | Lecture Notes (Ch.5 ~ Ch.6)
- 02** | Check the homework link
 - Everyone put your ID & name at the top of readme.md
- 03** | About midterm
 - The midterm exam will be replaced by a mini-project.
 - The mini-project will be given approximately 2-3 weeks later.

Time == Trust

In college, being 5 minutes late just means you missed some part of lecture.
But in a company, being 5 minutes late can mean you missed the trust.

In Korean companies, being on time is seen as basic respect.
Arriving early shows preparation, but arriving late often looks careless, even if your work is good.

From now on, if you arrive late and your mobile attendance is not recorded,
please do not ask me to mark you as present.

See you next week!

DO NOT miss the classes
